Being football coach has provided me with countless experiences and meaningful memories. It has given me the chance to share in victory and in loss. We have experienced a closeness and a fellowship in times of joy and in times of sorrow. I am able to watch these men grow and mature, to get to know them in all aspects of their varied personalities. I tried to recognize their great potential and help develop it. These men have taught me many things and given me a great appreciation of youth and their abilities. It is rewarding to feel that I have taken some part in shaping these young men's attitudes, personalities and lives.

Coach Latham

Coaching the Tulia Hornet Basketball team this year was a great challenge plus a new and rewarding experience. The move from Junior High to high school was a bigger step than I had anticipated. I learned a lot and the young men I coached were a great inspiration to me. They were not afraid of hard work and stuck together when the going was rough. The great surge they displayed in the district race was indicative of the

spirit and character of this team. The self-discipline and sacrifice we emphasized are keys to those same values that will be of great importance to these young men in life. Because of the groundwork laid by this year's seniors, the future looks bright for Tulia Hornet Basketball. I would like to thank everyone who supported us this year and I promise that we will continue to work hard to deserve that support.

Coach Chauveaux

Coaching the 1976-77 Hornets was one of the most satisfying experiences of my coaching career. Teams may have won more games but I have never coached a group of people who worked any harder. These young ladies grew and matured as individual ballplayers as well as a team. They developed a closeness as a group by each working to do her part to achieve a team goal. Those team members who will be returning next season have a good base upon which to build even greater achievements.

AFS! What is it? It's to reach out your hand in friendship, and to fill your heart with love.

The people of Tulia have given me something more precious and more meaningful than anything I've ever experienced. It has been rewarding to share a life filled with happy memories, friends, and feeling wanted and loved by strangers from another land. It just goes to show that all over the world people are the same and are brought together by love.

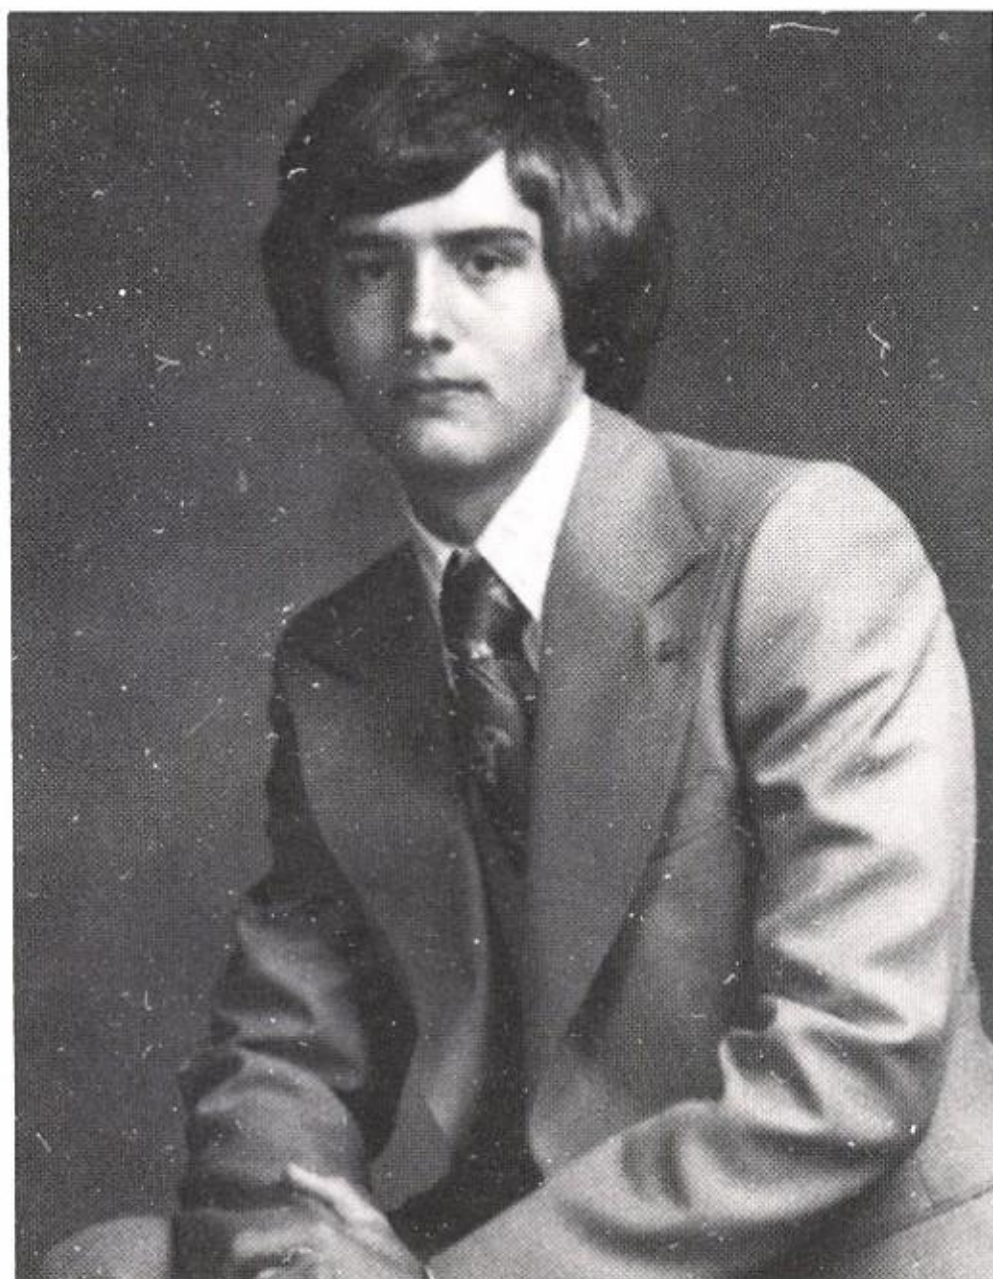

It will be sad leaving, but yet it has only been a beginning of a long and strong friendship. I want to thank each one of you for this wonderful experience.

Andrea Beaver

Being Student Council president has been an honor I will never forget. I would like to thank everyone for making it possible and for making this the best year of my life. I hope more than anything that I did the job the way you, the THS student body, wanted it done.

The National Honor Society is an organization composed of Junior and Senior students with a high academic average. Emphasis is not on scholarship alone, for a student must qualify for membership in three other areas: leadership, character, and service. Selected by the faculty and installed by the Senior officers, membership in this special society is truly an honor.

A.F.S. gives a person a chance to know our foreign exchange students better. It broadens the interest in our foreign exchange program and helps them financially, and they gain many new friends, that otherwise would have possibly just been casual acquaintances. The A.F.S. program brings the human race together and makes us realize that people, even though they have different cultures and traditions, are basically the same and share the common love and understanding that binds us together around the world.

Credits

The '77 Annual Staff wishes to thank Doug Altom, Taylor Publishing Company representative for his help in putting this annual together. We also wish to thank Adrian's Photography for the school pictures, senior portraits and composite, and the organization pictures; Mr. and Mrs. Kenneth Wyatt for the use of their home in the Who's Who pictures; Jody White for the use of specific negatives; Mr. and Mrs. Larry Prather for the use of their yard in the Mr. and Miss THS pictures, and all students who participated in the cover and endsheet pictures.

Editors' Note

The '77 Annual is an attempt to capture not only certain memories, but also certain faces. It also attempted to make changes from a standard style and present an interesting format for the imagination.

We can't take credit for it. That's just the way it happens to be. Natural gas is clean burning. Doesn't dirty the air. It helps preserve the clean, blue skies of today for tomorrow.

What we can take credit for is working to provide a continuous supply of clean gas energy . . . to warm people, to cool people, to cook their meals, to heat their water, to dry their clothes . . . gas to help industry do its work.

Clean, efficient, versatile Natural Gas . . . the blue sky energy for today and tomorrow.
